### Fixed in Version 2.6, Service Release 1

The following issues are fixed in Service Release 1 for Version 2.6 of Web TimeSheet Integration Manager for Microsoft Project:

- After the user installs the Integration Manager for Microsoft Project using the server **Update Option**, a client download link now displays on the **Integration > Microsoft Project** page in version 7.1 or higher of Web TimeSheet. (55206)
- When those using Web TimeSheet version 7.1 or higher install the Integration Manager for Microsoft Project on a server, the folder where Web TimeSheet is installed is now the default installation location. (55080)
- Projects that have project descriptions (that contain a file name) that are mapped to project company can now be transferred from Web TimeSheet to Microsoft Project without an exception error occurring. (49374)

### Compatibility Chart

The table below indicates which versions of Web TimeSheet and Microsoft Project are required to work with this version of the Integration Manager.

Integration Manager File	Microsoft Project Version	Web TimeSheet File
MSPServerAdmin26.exe	Server 2003	Version 6.5 and higher
MSPStdProAdmin26.exe	Standard 2002/2003	
	Professional 2002/2003
