### New in Version 2.8

The following new features are available in Version 2.8 of the Web TimeSheet Integration Manager for Microsoft Project:

- **Support for Microsoft Project Server 2007**

The Integration Manager now supports integration between Web TimeSheet and Microsoft Project Server 2007.

 Support for integration with Microsoft Project Standard/Professional 2007 was introduced with Version 2.7 of the Integration Manager.

- **New field mappings**

The following field mappings are now available in the Integration Manager:

From Microsoft Project to Web TimeSheet:

- **Project Company to Project Client**

From Web TimeSheet to Microsoft Project:

- **Task Estimated Cost to Task Cost**
- **Task Estimated Hours to Task Work**
- **Project Client to Project Company**

### Fixed in Version 2.8

The following issues are fixed in Version 2.8 of the Web TimeSheet Integration Manager for Microsoft Project:

- Now only projects published in Microsoft Project Server display in the Integration Manager's project selection list. (56307)

- Fixed issue that prevented the Integration Manager from installing. (57081)
- A project's **Billable** billing status is now retained when it is transferred from Web TimeSheet to Microsoft Project and then transferred back to Web TimeSheet. (55041)
- An error no longer occurs if the user selects the Project to Web TimeSheet direction of transfer, selects **Connect** from the **Configuration** tab, and then selects **Update** from the **General** tab. (59215)
- Fixed issue that caused the **Start Installation** window to display twice during installation of the Integration Manager. (59178)
- Fixed issue that caused Web TimeSheet projects to display on the **General** tab after the user selected the Project to Web TimeSheet direction of transfer. (59232)
- After transferring a project from Web TimeSheet to Microsoft Project, the project's subtasks now display in the correct order. (59053)

## Compatibility Chart

The table below indicates which versions of Web TimeSheet and Microsoft Project are required to work with this version of the Integration Manager.

Integration Manager File	Microsoft Project Version	Web TimeSheet Version
MSPServerAdmin28.exe	Server 2007	Version 7.5 and higher
