Updates in Version 2.6

The following updates are included in Version 2.6 of Web TimeSheet Integration Manager for QuickBooks:

- Support for Web TimeSheet version 8.2

The Integration Manager is compatible with versions of Web TimeSheet 8.2 or higher, licensed for both Project & Billing **and** Time & Attendance. The following changes have been made to support integration with Web TimeSheet 8.2:

- Users transferred from QuickBooks to Web TimeSheet (employees or vendors) are assigned both Time & Attendance and Project & Billing license seats, and *Project Resource - Billable* permission.
- In the **Time Entries** section, a <None> option is now available in the **Client**, **Project**, and **Task** filters. This option can be used to transfer non-project time from Web TimeSheet to QuickBooks. The <None> field must exist in QuickBooks prior to the transfer.
- If a user does not use timesheets, their booked time off cannot be transferred to QuickBooks.

If you have a Web TimeSheet Project & Billing license only, you should use Web TimeSheet Billing Integration for QuickBooks, version 4.x to integrate with QuickBooks.

- The Integration Manager no longer supports QuickBooks Canadian Edition 2005, QuickBooks Pro or Premier U.S. Edition 2005, and QuickBooks Enterprise Solutions U.S. Edition 5.0 since these editions have been discontinued.
- The Integration Manager's method of handling duplicate user/vendor/employee names has been improved.

The Web TimeSheet Integration Manager for QuickBooks is no longer being developed.

Compatibility Chart

The table below indicates which versions of Web TimeSheet and Intuit QuickBooks are required to work with this version of the Integration Manager.

Integration Manager File	Intuit QuickBooks Version	Web TimeSheet File
QBIntegration26.exe	QuickBooks Pro or Premier U.S. Edition 2007 or 2006	Version 8.2 and higher
	QuickBooks Pro or Premier Canadian Edition 2007 or 2006	
	QuickBooks Enterprise Solutions U.S. Edition 7.0 or 6.0
