New in Version 2.7

The following new features are available in Version 2.7 of Web Resource:

- **Support for Integration with Web TimeSheet 8.2**

Version 2.7 of Web Resource is compatible with Web TimeSheet Project & Billing version 8.2 or higher only. The following changes to Web Resource support integration with Web TimeSheet 8.2:

- Since *User Groups* are obsolete in Web TimeSheet as of version 8.2, when transferring group/category data, users can now use Web TimeSheet user defined fields (rather than *User Groups*) to transfer data to Web Resource *Categories*.
- Only users with Project & Billing seat assignments in Web TimeSheet are listed as available for transfer to Web Resource.
- Web Resource is only able to connect to versions of Web TimeSheet that include the Project & Billing license.
- New users transferred to Web TimeSheet are automatically assigned *Project Resource – Billable* permission, if it is available.
