New Offline Expense Sheet

Our new Offline Expense Sheet allows your employees to complete their expenses when offline. By providing your employees with more convenient methods for entering their expenses, your organization increases the likelihood that expenses will be submitted accurately and on time.

From Web TimeSheet, simply click the **Offline** button to send an offline expense sheet to your users as an e-mail. Once they retrieve the e-mail and complete their offline expense sheet, users have the choice of either saving and submitting their expenses at a later date, or immediately submitting the expense sheet to Web TimeSheet. For greater ease-of-use, the offline expense sheet has the same look-and-feel as Web TimeSheet.

Fixed in Web TimeSheet 5.8 Product Release

The following previously known issues are fixed in Web TimeSheet version 5.8.

Module	Description of Fixed Issue
Administration	36240 If a time off code balance is negative, the Allowed Balance on the User Profile/Time Off page is blank.
	36150 When setting up a department, the hierarchy of the department was displayed incorrectly after adding a user.
	34893 Names containing an apostrophe (e.g. O'Donnell) are not found when doing a User Group Find.
	34692 The User Rate field in the mass edit team page was too

Module	Description of Fixed Issue
	small.
