Fixed in Web TimeSheet 5.8 SR1

The following previously known issues are fixed in Web TimeSheet 5.8 SR1.

Module	Description of Fixed Issue
Administration	<p>37481</p> <p>On the License Key Information screen, the Show/Hide functions displayed incorrect information in the associated columns.</p> <p>38522 and related issues</p> <p>When invalid data was entered in a date or number type User Defined Field, the system returned either a server error or the value 'null'.</p> <p>38534</p> <p>When using the quick add feature to add users, no user was created if the new user was based on a user presently in the system.</p>
Calendar	<p>38495</p> <p>Selecting a date from the calendar in the In-Out Timesheet returned a blank screen.</p>
Configuration	<p>35443</p> <p>Supervisors could not configure the timesheet task name.</p>
Data Export	<p>37823</p> <p>When performing a raw data export, the data generated for Time Off was incorrect.</p>

Module	Description of Fixed Issue
Data Migration	<p>36404</p> <p>Data migration from WTS 4.1 Access to WTS 5.8 Access failed.</p> <p>37644</p> <p>Following a data migration from Access to MSDE, timesheets could not be submitted for approval.</p>
Documentation	<p>36110 & 34601</p> <p>Installation instructions for IIS have been updated in both the Installation Guide and the systeminfo.txt file.</p>
Expenses	<p>36453</p> <p>An Offline Expense sheet could not be resubmitted when the corresponding online expense sheet had been reopened.</p>
Installation	<p>37953</p> <p>Following an upgrade to Web TimeSheet version 5.8 from an older release, some timesheet data was not displayed.</p>
Microsoft Project	<p>37593</p> <p>The system returned a run time error when attempting an Oracle import.</p>
Projects	<p>38437</p> <p>The Edit Project page, when in View Only mode, displayed 1 or 0 instead of Yes or No in some fields.</p> <p>37553</p> <p>When attempting to delete a billing rate, the tooltips displayed codes 1 or 0 instead of Yes or No.</p> <p>35433</p> <p>When performing a mass edit of projects, adding a long description in the Allowed Expenses text box resulted in the Allowed Expenses column to be dislocated on the display.</p>
QuickBooks	<p>37806</p> <p>The Time Off export in QuickBooks IIF did not display the Note column correctly.</p> <p>37607 & 37586</p> <p>A Page Not Found error was returned when attempting to open the QuickBooks Integration Manager</p>

Module	Description of Fixed Issue
QuickBooks (continued)	37573 A run time error was returned when attempting to open the QuickBooks XML Integration Manager. 37070 When using QuickBooks IIF, transfer of data to sub accounts did not work correctly.
Timesheet	38162 When a Timesheet had global User Defined Fields added, the timesheet service periodically stopped without errors. 37533 Following a data migration from Access to Oracle, the default hours were not displayed in the timesheet. 37403 Rejected Offline Timesheets could not be resubmitted. 37328 The Comments section on the Timesheet screen only displayed the task name, not the full project and task.
System	38555 Some users could not see the Delete icon on some screens in Web TimeSheet.
