### Fixed in Web TimeSheet 6.1 SR1

The following previously known issues are fixed in Web TimeSheet 6.1 SR1.

| Module            | Description of Fixed Issue  |
|-------------------|---|
| Import Engine     | 40937<br>When using the Import Engine, if a project was set up for single client or cost allocated clients, but the client was not set up, the import failed without giving an error message. |
| Offline Timesheet | 41045<br>Offline timesheets could not be sent back to Web TimeSheet for projects that were not set up for the bucket allocation method.   |
| Reports           | 40634 & 40994<br>When running a Project Status Detailed (User Group) report, an out of range or server error was returned when tasks with zero hours were included.                           |
| Reports           | 40848<br>Under some circumstances the Project Detailed Status (Task) and Project Detailed Status (Task User) reports contained no data.   |
| Reports           | 40931<br>When running a Project Status Detailed (Task User) report, no data was displayed for a specified project and user, although the user had time booked against the project.            |

| Module    | Description of Fixed Issue  |
|-----------|---|
| Reports   | <p>40947</p> <p>When running a Project Status Detailed (Task) report, a server error was returned when "Roll up hours/cost from sub-tasks to parent task/project" was selected in System Preferences.</p>   |
| Reports   | <p>40959</p> <p>When time was entered for one client against a project which was set up for the bucket method, the Timesheet billing report also showed the time billed to all other clients.</p>   |
| Reports   | <p>40960</p> <p>Spelling errors were fixed.</p>   |
| Reports   | <p>40978</p> <p>When running a Timesheet billing report filtered for a specific client, the projects shown in the report were incorrect.</p>  |
| Reports   | <p>41020</p> <p>When running a Project/Task Progress report, the running totals (actual hours and actual costs) were accumulating from client to client instead of being totaled on a per client basis.</p>   |
| Reports   | <p>41035</p> <p>If there are zero estimated hours entered for a project, but a positive number of actual hours booked, then the hours remaining will show as negative in the detailed project status reports.</p> <p><b>Workaround:</b><br/>Enter a suitable positive number for estimated hours.</p> |
| Timesheet | <p>40971</p> <p>After users had submitted a timesheet for a project set up with multiple clients, the administrator could no longer edit the billing rates, expenses or roles.</p>  |
| Timesheet | <p>40999</p> <p>Tasks that had been added were not visible in the timesheet.</p>  |
| Timesheet | <p>41010</p> <p>Under some operating system and browser configurations, the Timesheet screen flickered.</p>   |
