### What's New in Web TimeSheet Version 6.7

The following new features are available in version 6.7 of Web TimeSheet:

- **New overtime rules**  
New templates are available for Overtime Rules, including several varieties of Bi-Conditional Rules, and a Daily Overtime Rule. There is also user-definable "straight time" available within two of the rules.
- **Ability to create and choose new themes**  
Users now have the ability to either select from one of the pre-set themes, or tailor the look of Web TimeSheet to their preference. Changes can be made to the colors, and users can select different buttons and icons. The chosen theme will be applied immediately after selection.
- **New Unicode support**  
Unicode support has been added to Web TimeSheet version 6.7 to enhance multi-language requirements.
