

## Web TimeSheet System Requirements

---

Below are the requirements for the Web TimeSheet server, its database, and the client machines that will be used to access the system.

### Server Requirements

The server on which Web TimeSheet is installed must meet the following requirements:

#### Operating System

- Windows NT,
- Windows 2000 with Service Pack 3 or higher,
- Windows XP Professional, or
- Windows 2003

#### Hardware

Minimum (suggested only for fewer than 50 users):

- Pentium III, 800 MHz processor,
- 512 MB of RAM,
- 1 GB of hard disk space, and
- SMTP-compliant e-mail server

Recommended:

- Pentium IV, 1.36 GHz processor or higher,
- 1 GB of RAM or more,
- An additional 512 MB of RAM when used with more than 200 users,
- 1 GB of hard disk space or more, and
- SMTP-compliant e-mail server

#### Web Server (Optional)

- Microsoft Internet Information Services 5.0 or higher

 Other CGI 1.0-compliant web servers may be supported.

### Database Requirements

Web TimeSheet requires one of the following database platforms be installed, either on the Web TimeSheet server or a server accessible by Web TimeSheet:

Fewer than 50 users:

- Microsoft Access<sup>1</sup>

More than 50 users:

- Microsoft SQL Server 2000 with Service Pack 4 or higher,
- Microsoft SQL Server 2005,
- Microsoft Desktop Engine (MSDE) 2000, or
- Oracle 9.2 or higher

---

<sup>1</sup> Included with Web TimeSheet

## Client Requirements

Each PC being used to access the Web TimeSheet system must meet the following requirements:

### Operating System

- Windows 9x,
- Windows NT,
- Windows 2000,
- Windows XP,
- Windows 2003,
- Macintosh 8.6 and higher, or
- Linux workstations and UNIX terminals running X Windows

### Hardware

Minimum:

- Pentium III, 450 MHz processor, and
- 128 MB of RAM

Recommended:

- Pentium III, 800 MHz processor or higher, and
- 512 MB of RAM or more

### Internet Browser

PC-based systems:

- Microsoft Internet Explorer 5.5 or higher,
- Netscape Navigator 7.2, or
- Mozilla Firefox 1.0.6 or higher

Macintosh- and Unix-based systems:

- Mozilla Firefox 1.0.6 or higher

☐ Netscape Navigator and Mozilla Firefox do not support ActiveX controls. Therefore, if you plan to use the pivot tables feature within Web TimeSheet, you must use Internet Explorer as your browser. Your browser and any plug-ins or toolbars must be configured to allow pop-ups.
